OBSERVATIONS.

By comparison in the Cabinet seems to be the normal condition notwithstanding the Attorney General's explanation that it is only a very rare occurrence. That for the exposures have shown themselves upon rather important details of the land law.

Another report has been received from the Labor Commission. The subject being strikes and arbitrations. It gives the opinions of many leading planters against any law now, but in favor of having existing laws properly enforced. There is a quantity of irrelevant information about labor conditions in other countries, and the commission has nothing to recommend but the creation of a new satisfied officer, who, according to the duties assigned to him, might be entitled Conciliator-General and Arbitrator-in-Chief.

THE AUSTRALIA.

All About Her Trip And Passengers.

The Australia arrived from San Francisco today at 10 a. m., a large number of people being on the street to say good-bye to the ship and passengers. The trip down was a most delightful one and the passengers, who come from many parts of the world, were loud in their praise of the excellent treatment received from those in charge. There was to have been a Knights' Templar and a Yachting excursion on this trip, but it did not materialize. There are a few Maoris on board and one or two teachers, but they are not personally conducted. G. W. Wilkins, a wealthy insurance man of Honolulu, Cal., has charge of a party of friends on board. In this party are: Fred Heath and wife, A. J. Darby and wife and Mrs. Riddle, all residents of Honolulu; F. F. Collins, wife and son of San Antonio, Texas; H. M. Brown, M. D., of Colton, F. M. Conant and wife and Mr. Conant's mother of Santa Barbara and Mrs. Field of New York. Mr. Wilkins is accompanied by his wife, and the whole party will take in the sights of the "Paradise of the Pacific" before leaving.

Mr. Darby, who is a dentist, may locate in Honolulu. Mr. Conant is a jeweler. Mr. Heath a druggist and Mr. Riddle owns an ironing press.

Of the other passengers Mr. Joseph Cook is the well-known lecturer from Boston, Mass. He was a classmate with Chief Justice

Judd, and will be his guest during his stay in Honolulu. Mr. Cook is on a tour around the world. There are two noted ministers on board, the Rev. Dr. MacArthur of Calvary Baptist Church, New York, who is on vacation, and Rev. Dr. E. M. Pease, who is going to the Marshall Islands by the White Morning Star.

Messrs. John, George and Henry Waterhouse are returning from Princeton College for a four months. W. H. Soper is from Stanford University, while Miss Rose Roth has completed her studies at St. Margaret's School, San Mateo. Miss Daisy Kerr and Willie Kerr, children of L. B. Kerr, have been attending school at Heidelberg.

There is to be a wedding on Maui very shortly. The bridegroom came on the Australia in the person of J. P. Cooke, who is to marry Miss Maud Baldwin. Mr. Cooke is in the brokerage business in San Francisco. M. Grossman, a very pleasant gentleman, makes his first trip to the islands. He is the father of the dentist, Dr. M. Grossman.

Clarence L. Falk and R. J. Nannemacher are from Milwaukee, Wis. The former was a classmate with Jamie Wilder at Harvard. The two gentlemen are on the tour of the world, and both have their eyes open. They leave on the Monowai for the Colonies.

Judge Foster is looking well after a four months visit on the Coast. He left Mrs. Foster there, her health improving all the time.

Two very fine musicians arrived by the steamer, viz: John Marquardt, solo violinist with Schutz, orchestra, and his wife, who is an exceedingly clever harpist. They are going to the Colonies on the Monowai, and have said over to give two concerts. Everyone should hear them.

G. A. Spreckels, better known as "Gus," has come down to visit the vast sugar estate at Spreckelsville, Maui. He may stay here a few weeks.

Wray Taylor, the Cathedral organist, looks as if he had enjoyed his six weeks vacation at the coast. He speaks enthusiastically of what he has seen and done while away.

Miss Lastreio is a fortunate San Francisco school teacher, who is enjoying a trip to the islands and back at the expense of the San Francisco Bulletin. She won the second prize in a subscriber's competition that paper has been carrying on. Miss Lastreio's mother accompanies her.

Sugar is 3 5-16.

This is the longest day in the year.

There was a jolly crowd on the back porch of the hotel last night.

The St. Louis and Royal schools ball clubs will contest tomorrow morning.

A blue jacket came on the Australia to join the Bennington. He was left behind.

The Australia brought about 1800 tons of freight, two horses and 63 bags mail.

Mr. Hannegan has resumed his duties as head steward of the Australia. He is feeling better after his recent accident.

The Pacific Hardware Company exhibit two monster pineapples raised by the Woodlawn Fruit Company at Pearl City. They weigh 12 1/2 and 10 1/2 pounds respectively.

One of the lost on the Colima was Thomas Gray, a machinist who once worked at the Honolulu Iron Works. His wife was Mrs. Ernestine Gray, who taught music. Gray was in charge of the ice machine on the Colima.

Timely Topics

June 19, 1895.

As the days go by the bicycle is coming more and more to the front. It is becoming an actual necessity in almost every department of the world's affairs. Emperor William of Germany has already recognized its utility in his vast military organization and has equipped several regiments with wheels. This suggestion is offered to Col McLean, who is said to be thinking of organizing a cavalry company.

Instead of mounted police why not furnish the guardians of the peace with bicycles, the same as is done in Chicago, New York, San Francisco and other large cities. In his recent report the attorney general dilates in glowing terms on the utility of the mounted police in the outlying districts. What is the matter with mounting them on wheels? This suggestion is respectfully offered to Marshal Hitchcock and his superior. A good horse costs more than a good bicycle, but irrespective of that there are several reasons why the wheel is the more economical and useful of the two. Among them may be mentioned:

1.—Bicycles don't eat hay at \$30 per ton.

2.—Bicycles don't munch oats and barley all day long when they can get it, and

Bicycles don't bite nor tread on your pet corns.

Bicycles never get tired and they don't drink.

Now there are bicycles and bicycles, of all sorts, sizes and shapes but none of them come up to the Monarch in beauty, strength and swiftness.

It is the strongest, fastest, and most beautiful wheel that is manufactured, and the wheelmen of America know it. Those in Hawaii have only to try the machine once to arrive at the same opinion.

The Monarch Bicycle Co. is making this year two special grades of wheels. We have them both. One sells at \$90 and the other at \$105. The \$90 wheel is for those riders who are not particular about having the very lightest weights, but who want a good, serviceable wheel, sold under a binding guarantee, which will run easily and wear well. The \$105 wheel is the latest product in high grade wheels. It is absolutely the best high grade bicycle on the market, strong, stiff, staunch, light and easy running and giving entire satisfaction to all who ride it. To sum up its perfections it is the monarch of all wheels.

We have received the first consignment of a dozen of these wheels and they are going off like hot cakes. We sold two of them this morning before lunch. We have several other consignments on the way and will soon be in condition to supply the army, police and other government departments, with a few left over for the navy when its officers feel like taking a spin out to the beach. To the general public we would say, "Don't purchase a bicycle till you have seen the Monarch." If you don't buy of us then there will be no hard feelings on our part.

IT IS AN OLD SAYING

That "where there is Smoke there must
be Fire," and that fire and smoke to-
gether often cause explosions. . . .

THIS HAS PROVED TO BE UNTRUE.

And as the proof of the pudding is in the
eating, I most respectfully invite you to call
and inspect the
"NEW PROCESS" GASOLINE STOVE
absolutely free from unpleasant odors, and
can be operated by a child. This Stove
will reduce ice cold water to boiling heat in
three minutes.
The expense is small. In fact it does not
cost one half as much to run the NEW
PROCESS as a wood, coal or any other
kind of stove.
